

How to care for your Journeyman Case

1. This case is crafted using natural fibers and this type of fabric can stretch over time. To smooth out any flaws use a steam iron on cotton setting. Be careful not to burn fabric.
2. To keep your case looking factory-fresh, please use a stain or water repellent spray and follow their instructions.

Gator does not guarantee treating your case with any product will protect your case from any stains or damage. Damage from treatment will not be covered under Gator warranty policies.
